REPLY

Commissioner for Patents:

Applicant files this Reply in response to Examiner's rejection of claims raised in an interview on September 8, 2004. During the interview, Examiner and Applicant's attorney discussed the claims as presented in the Amendment, previously filed on August 10, 2004. Applicant gratefully appreciates the attention and time given by Examiner Juska before and during the interview.

In particular, Applicant responds to Examiner's office action, supplied during the interview, rejecting newly amended composition-of-matter claims 1-36 and 38-41 as obvious under 35 U.S.C. § 103 over Hendrickson and Zebala PN 6,159,681 ("the '681 patent").

Applicant responds pursuant to Applicant's agreement with Examiner, by filing a Declaration of Syntrix Biochip, Inc. ("Syntrix") to disqualify the '681 patent as prior art under 35 U.S.C. § 103(c).*

* Applicant notes that the filing date of the subject application, September 17, 1999, is prior to the effective date of the cited law, November 29, 1999. If Examiner deems necessary, Applicant will file a continuation

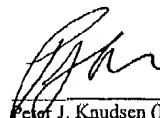

In its Declaration pursuant to 37 CFR § 1.104(a)(5), Syntrix avers that it is the common owner of the subject patent application and the '681 patent. Further, Syntrix avers that the inventor of the subject matter recited in rejected claims 1-36 and 38-41 (as currently pending) was under an obligation to assign those inventions to Syntrix, the common owner, at the time the inventions were made by virtue of inventor's employment agreement.

The assignment agreement was executed at the time the subject application was filed and was recorded, albeit with the wrong application number, in the Patent and Trademark Office at Reel /Frame No. 010235/0300-02. A copy of the Recordation Form Cover Sheet submitted on September 13, 1999, by Seed Intellectual Law Group, LLC, the original attorneys for the subject application, is attached. The form incorrectly listed the application number of the subject application. Syntrix explained this error in its April 30, 2004, letter, also attached.

Syntrix avers further that it was also assigned the entire rights in PN 6,159,681, which assignment was recorded in the Patent and Trademark Office at Reel/Frame No. 010216/0988.

Applicant hereby requests further examination and reconsideration of the claims of the subject application in view of the attached Declaration. Applicant believes that the Declaration disqualifies the '681 patent as prior art, overcomes the obviousness rejection of claims 1-36 and 38-41, and places these claims in condition for allowance.

Respectfully submitted,
